

## Frequently Asked Questions

Applicable for Admission to the Two-Year On-Campus

**MBA in Business Analytics Programme**

**Academic Year 2023-24**

### Application Stage Query:

- **What is the eligibility criteria for admission to the MBA in Business Analytics programme?**

Candidates holding a bachelor's degree in any discipline or its equivalent with at least 60% aggregate marks, and having studied at least one subject in Mathematics or Statistics at the high school (10+2) or higher level.

Students who are in the final year of their Qualifying Degree programme are also eligible to apply, provided they can submit the original copies of the results till 1<sup>st</sup> October, 2023, and fulfil other criteria.

- **What is a Qualifying Degree?**

Any educational programme which makes you eligible to pursue the two-year on-campus MBA in Business Analytics from BITS Pilani (Pilani Campus) can be considered as a Qualifying Degree.

- **I am in the final year of my qualifying degree. How should I calculate my aggregate percentage?**

You should calculate your aggregate percentage of marks based on the mark-sheets of all previous semesters / years related to the qualifying degree available with you at the time of applying. Once you finish your qualifying degree, you should have obtained minimum of 60% aggregate marks in for all the semesters / years combined.

- **Is the aggregate percentage for entire course considered for admission or is only the final year considered?**

Percentage for the entire course in the qualifying degree is considered for deciding the eligibility criteria.

- **My university mentions the percentage / CGPA for only the final year in the final mark-sheet. Should I still report the percentage / CGPA for entire course while applying for the MBA in Business Analytics programme?**

Yes, you should report the percentage / CGPA for the entire programme, which should be considered as your Qualifying Degree.

- **I have not yet completed my qualifying degree and till now my percentage / CGPA is below 60%. I expect my final aggregate percentage / CGPA to be more than 60%. Can I apply for the MBA in Business Analytics programme?**

Yes, you may apply for the MBA in Business Analytics programme. However, once you finish your qualifying degree, you should have obtained minimum of 60% aggregate marks in all the semesters / years combined. Otherwise, any offer of admission to the MBA in Business Analytics programme of the institute will stand cancelled whenever you are found to have scored below 60% aggregate marks in your qualifying degree.

- **My university calculates CGPA on a scale that is not 10-pointer (e.g. 7 pointer or 9 pointer). Shall I report CGPA in that scale only?**

You should convert the CGPA to percentage. In case of grades/CGPA, the conversion to percentage of marks would be based on the procedure as certified by the respective University/Institution. If any University/Institution confirms that there is no scheme for converting CGPA into equivalent marks, the equivalence would be established by dividing the candidate's CGPA by the maximum possible CGPA, and multiplying the result with 100.

- **How can I convert my CGPA to percentage?**

If your university / institute has a prescribed formula for the conversion (available through its website or mentioned in the mark-sheet or on any public domain notice), then you should follow that. Otherwise, you can use simple mathematics to convert the scale to a percentage or a 10-pointer scale.
